Chat GPT in a nutshell

IT'S
DEMO TIME!

Open AI models

Davinci (text - davinci - 003)

- Is the most capable model
- Can perform any task the other models can
- Strong at analyzing complicated text

Curie (text - curie - 001)

- Extreme powerful, yet very fast
- Quite capable for many nuanced task like sentiment classification and summarization

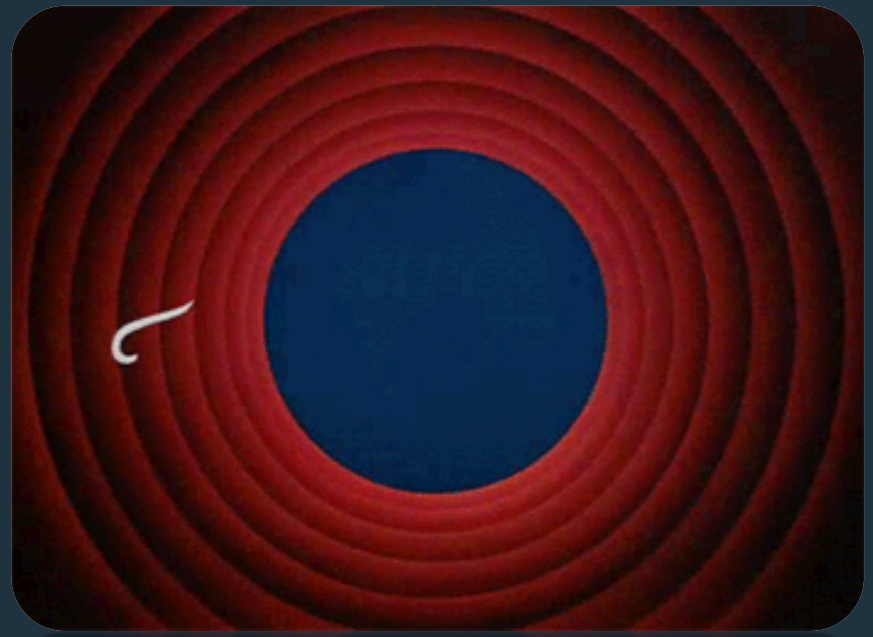
Open AI models

Babbage (text - babbage - 001)

- Straightforward tasks like simple classification

Ada (text - curie - 001)

- Usually the fastest model
- For tasks that don’t require too much nuance
- Can need more context



Thank you for attending!
